## SUMMARY

**Computer Science Engineering graduate** with hands-on experience in **Java, SQL, React.js, and AI-powered applications**. Completed a **3-month internship at Rooman Technologies**, working on **Web Development and Generative AI** projects. An enthusiastic and self-motivated learner with strong problem-solving, teamwork, and analytical skills, eager to build innovative software solutions and grow as a **Software Engineer** or **Java Full Stack Developer**.

## SKILLS

**Programming languages:** Java | Python | SQL | JavaScript

**Tools & Platforms:** Power BI | Git & GitHub | MySQL | AWS Cloud | VS Code

**Web Technologies:** HTML | CSS | React.js | Angular | TypeScript | Springboot

**Technologies & Domains:** Artificial Intelligence | Machine Learning | Deep Learning | Natural Language Processing (NLP) | Large Language Models (LLMs) | Generative AI | Retrieval-Augmented Generation (RAG) | Prompt Engineering

**Core Competencies:** Object-Oriented Programming (OOP) | Data Structures & Algorithms | Software Development Life Cycle (SDLC) | Software Testing Life Cycle (STLC)

**Soft skills:** Communication, Teamwork, Adaptability, Leadership, Time Management

**Libraries & Frameworks:** NumPy | Pandas | Scikit-learn | Streamlit | OpenCV | FAISS

## PROJECTS

### Fingerprint Based Blood Group Detection Using Deep Learning

**Technologies Used:** Python, Deep Learning, Machine Learning, Image Processing

- Developed a deep learning-based system to predict blood groups using fingerprint patterns.
- Applied AI and image processing techniques for classification and prediction.
- Trained and tested deep learning models to improve prediction accuracy and system performance.
- Designed the project as a final year academic solution focused on healthcare innovation and intelligent automation.

### Social Media AI Agent

**Technologies Used:** Python, Streamlit, Groq Llama-3 API, Prompt Engineering

- Developed an AI-powered application that generates captions, hashtags, and content ideas for social media platforms.
- Integrated the Groq Llama-3 API for real-time content generation.
- Deployed the application on Streamlit Cloud for public access and testing.

### AI Document Assistant

**Technologies Used:** Python, Streamlit, Google Gemini API, FAISS, OpenCV, NLP, Prompt Engineering

- Developed an AI-powered document assistant that enables users to upload PDF documents and ask questions using natural language.
- Implemented Retrieval-Augmented Generation (RAG) concepts using FAISS vector search and integrated the Gemini API to generate context-aware answers.
- Applied NLP for text extraction and processing, OpenCV for image preprocessing, and built an interactive Streamlit-based user interface.

### AI Powered Study Buddy

**Technologies Used:** Python, Streamlit, Groq API, Prompt Engineering, PyPDF2

- Developed an AI-powered study assistant for summaries, quizzes, flashcards, and writing support.
- Implemented PDF-based question answering using LLMs and document text extraction.
- Applied Generative AI and prompt engineering to deliver personalized learning assistance.

### Book Recommendation System

**Technologies Used:** Python, Pandas, Scikit-learn, TF-IDF, KMeans Clustering, Streamlit

- Developed a recommendation system to suggest books based on user preferences and interests.
- Implemented machine learning techniques to improve personalized recommendations.

### Sales Analysis Dashboard of Amazon Products

**Technologies Used:** Power BI, SQL, Data Visualization

- Created an interactive Power BI dashboard for analyzing Amazon product sales data.
- Visualized sales trends, customer insights, and product performance metrics.

## INTERNSHIP EXPERIENCE

### Rooman Technologies | Web Development & Generative AI Intern

02/2026 – 05/2026 | Bengaluru India

- **Completed a 3-month internship** in **Web Development and Generative AI** with hands-on experience in **AI-powered applications**.
- Developed a **Social Media AI Agent using Groq Llama-3 API and Streamlit** for automated caption, hashtag, and content idea generation.
- Implemented **API integration, prompt engineering, and frontend development** to build an end-to-end AI-powered application.
- Gained hands-on experience in AI applications, web development, and real-world project deployment.

INDUSTRY PROGRAM & PROFESSIONAL TRAINING

AI & Green Skills Trainee – Skills4Future Program Edunet - Foundation | AICTE | Shell

Advanced Course on Green Skills and Artificial Intelligence Sep 2025 – Nov 2025

- Received training in **Artificial Intelligence, Green Skills, and Electric Vehicle (EV) technologies.**
- Gained exposure to sustainable technologies and emerging industry trends
- Completed hands-on learning modules and industry-oriented workshops

TNS India Foundation & Capgemini Industry Training Program (Ongoing) | 2026 – Present

- Currently undergoing training in **Java, SQL, Aptitude, and Interview Preparation.**
- Developed **technical and employability skills** through **industry-focused** training sessions.
- Participating in **coding exercises, mock interviews, and career readiness activities.**

EDUCATION

**Bachelor of Engineering (CSE),** ACS College of Engineering 2022 – 2026 | Bengaluru, India  
CGPA: 8.5

**Senior Secondary (XII), DPUE, Science,** ASC Independent PU College 2020 – 2022 | Bengaluru, India  
Percentage: 85%

**Secondary (X), State Board,** Vidhyashree High School 2020 | Bengaluru, India  
Percentage: 91.00%

CERTIFICATES

|                                                                                                                                                                                |                                                                                                                                                                               |                                                                                                                                                                                          |                                                                                                               |

ACHIEVEMENTS

- Maintained distinction-level academic performance with a CGPA of 8.5.
- Captained the school cricket team and participated in volleyball tournaments.

HOBBIES & INTERESTS

- History & Geopolitics
- Aviation & Aerospace
- Wildlife & Big Cats
